PROJECTS

2021

Node.js, Linebot, JavaScript,

SECRETARY BOT

- Build this bot to improve the convenience for my mom at work.
- Using Linebot API and Heroku to launch the project.

2022

React, Next.js, TailwindCss

MY PORTFOLIO

- Build my first portfolio using Next.js.
- First try to using Tailwind as my css framework.

SKILLS

I've used React and Next.js to develop lots of projects, and also good at using CSS and JavaScript to finish the project too. Besides, I've used Node.js and Express.js, and MySQL to launch a backend environment.
